

# everything you want is under tons of rock.

## everything you need is right here.

When you need to process thousands of tons of highly abrasive ore every minute of every day, you need ITT. Reliable performance is why we're a world leader in mining pumps and valves. Every single product we make is engineered to take all the abuse you can throw at it and just keep going.

Call 1-800-734-7867 for our latest mining brochure or visit [ittindustrialproducts.com](http://ittindustrialproducts.com).

#### Slurry Services

Hard metal and elastomer-lined slurry pumps

Vertical cantilever and submersible pumps

Knife gate, slide gate, wedge gate, and diaphragm valves

#### Processing and Utility Services

ANSI and ISO chemical process pumps

Vertical turbine pumps

Horizontal split case pumps

Multi-stage high pressure pumps

Diaphragm valves

#### Monitoring, Control, and Service

PumpSmart® process control solutions

ProSmart® condition monitoring

PumpSmart® plant assessment services

PRO Services® rotating equipment services

ProCast® replacement parts

**Goulds Pumps**  
**ITT Engineered Valves**

# ITT

*Engineered for life*
